

Thank you cannot begin to cover my personal gratitude as well as gratitude on behalf of The Village of Forest Park, The Live Healthy Forest Park Team, and our Partners of The Forest Park Community Garden. I am certain I am missing the email of someone you know who participated as well. I request that you please share my gratitude with them.

Compliments and again, thank you for your part in expanding the Community Garden, Food Pantry Garden and overall Park environment.

As we continue this week on the finishing touches and planting more seeds, each bit of dirt we move, will be filled with the thoughts of the Care you added to the Garden with us on the 30th. If you'd like to keep working with us, we would be honored. If there was any item you lost or left behind, let us know, we have a few tools and a fleece jacket looking for its home.

You were all great to work with. The feeling of community built that day within The Village of Forest Park, added to, with the partnership from Comcast truly planted roots of what we are all here to do...Live a healthier Life, which does start with Care and in the heart of us all in a healthier community for all by all. Each of you individually offered your Care, made a difference, made an impact that goes far beyond five hours on a Saturday afternoon.

We invite you to be a corner stone in our Healthy Living Community, be it visiting our website for more information and photos of the event to be posted there this week, or stopping by our Farmer's Market on Opening day June 10th from 3:30 to 7:30 PM...stop by the grill and we'll cook up something FRESH from the farm for you!

Thank you again for your part in the build of this event. The garden is now both more attractive as well as useful. It's great to see the final product and think it will impress anyone driving by. We invite you to visit it often, rest, walk, become a gardener with a plot, or be encouraged to start one in your own yard or on your balcony.

Make a healthy choice today,

Denise
